## 北京工业大学成绩及绩点证明

## **Grading System of BJUT Graduate Academic Transcript**

## 1. 成绩与绩点的关系表 (Test Grade Calculator)

| 级制                          | 成绩 X(score)  | 绩点(4.0 GPA scale) |
|-----------------------------|--------------|-------------------|
| (percentage)<br>百分制         | 90≤X≤100     | 4.0               |
|                             | 85≤X<90      | 3.7               |
|                             | 82≤X<85      | 3.3               |
|                             | 78≤X<82      | 3.0               |
|                             | 75≤X<78      | 2.7               |
|                             | 72≤X<75      | 2.3               |
|                             | 68≤X<72      | 2.0               |
|                             | 66≤X<68      | 1.7               |
|                             | 64≤X<66      | 1.3               |
|                             | 60≤X<64      | 1.0               |
|                             | X<60         | 0                 |
| (five-levels-system)<br>五级制 | 优(Excellent) | 4.0               |
|                             | 良(Good)      | 3.7               |
|                             | 中(Fair)      | 2.7               |
|                             | 及格(Pass)     | 1.3               |
|                             | 不及格(Fail)    | 0                 |

## 2.平均学分绩点计算公式(Formula for GPA)

平均学分绩点=∑(课程学分×课程绩点)/∑课程学分

 $GPA=\sum(course\ credits \times course\ grade\ point)/\sum course\ credits$ 

3.平均分计算公式(Formula for Average Score)

平均分=∑(成绩)/课程数

Average Score= $\sum$ (course percentage score)/Total number of courses

北京工业大学教务处 Office of Academic Affairs Beijing University of Technology
